PROJECTS

Plutus: Business Dashboard

📅 May 2023

- Developed a robust business dashboard using React, Tailwind CSS, and Syncfusion components to visualize key metrics and enable data-driven decision-making.
- Utilized interactive charts, tables, and widgets to visualize key metrics, analyze data, and drive informed decision-making for enhanced business management.

Spotify Clone

📅 April 2023

- Built a dynamic web application with React, mirroring the seamless functionality and captivating user interface of Spotify.
- Utilized React components, state management, and API integration to create an immersive and captivating layout, mirroring the renowned music streaming platform.

Prometheus: News App

📅 Feb 2023

- Effortlessly retrieves and showcases news articles from diverse sources, enabling users to delve into the latest updates across a wide range of categories.
- Implemented real-time updates, personalized preferences, and advanced search features for an immersive news browsing experience.

EXPERIENCE

- Collaboratively developed a user-friendly frontend for a database web app, showcasing detailed information on club members and projects. Contributed to the successful completion with a team of 11 members.
- Actively contributed to 4 open-source projects during Hacktoberfest
